

# Precautions

Deko Safaris is situated in a region free from malaria, ensuring a safer environment for our guests.

It is highly advisable that you secure both medical and travel insurance prior to your departure to South Africa, as this will provide you with added security and peace of mind during your journey.

For health safety, we strongly recommend vaccinations for Hepatitis A and B, as well as Tetanus, before embarking on your trip. Should you require additional health-related information while traveling, the CDC's travel page offers a wealth of resources and guidelines that can be immensely helpful.

We kindly request that you inform us of any allergies, disabilities, or physical limitations you may have prior to your arrival. This will enable us to make the necessary arrangements to accommodate your needs and ensure a comfortable stay.

Additionally, we urge you to bring a sufficient supply of any medications you may need for allergies, blood sugar management, or other conditions, to last for the duration of your stay at Deko Safaris. This precaution is vital to maintain your health and wellbeing while you are with us.
